

## Daily Small Cap Bull and Bear 3X Shares

### Overview

The Direxion Daily Small Cap Bull and Bear 3X Shares seek the daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the Russell 2000<sup>®</sup> Index. **There is no guarantee the funds will meet their stated investment objectives.**

These leveraged ETFs seek a return that is 300% or -300% of the return of their benchmark index **for a single day**. **The funds should not be expected to provide three times or negative three times the return of the benchmark's cumulative return for periods greater than a day.**

### Target Index

The Russell 2000<sup>®</sup> Index (RU20INTR) measures the performance of approximately 2,000 small-capitalization companies in the Russell 3000<sup>®</sup> Index, based on a combination of their market capitalization and current index membership. **One cannot directly invest in an index.**

\* The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be 0.95%. The Funds' Adviser, Rafferty Asset Management, LLC ("Rafferty") has entered into an Operating Expense Limitation Agreement with each Fund, under which Rafferty has contractually agreed to cap all or a portion of its management fee and/or reimburse each Fund for Other Expenses through September 1, 2018, to the extent that the Fund's Total Annual Fund Operating Expenses exceed 0.95% of the Fund's daily net assets other than the following: taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses. If these expenses were included, the expense ratio would be higher.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Brokerage commissions will reduce returns. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment. The Direxion Shares ETFs are not designed to track their respective underlying indices over a period of time longer than one day.

**Direxion Shares Risks** – An investment in each Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with the Funds' concentrating their investments in a particular industry, sector, or geographic region which can result in increased volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. Each Fund does not attempt to, and should not be expected to, provide returns which are three times the return of their underlying index for periods other than a single day. Risks of each Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Counterparty Risk, Intra-Day Investment Risk, risks specific to investment in small-capitalization securities, for the Direxion Daily Small Cap Bull 3X Shares, Daily Index Correlation/Tracking Risk and Other Investment Companies (including ETFs) Risk, and for the Direxion Daily Small Cap Bear 3X Shares, Daily Inverse Index Correlation/Tracking Risk and risks related to Shorting and Cash Transactions. Please see the summary and full prospectuses for a more complete description of these and other risks of each Fund.
